Woven Gradience
Interface®
Carbon Neutral Floors™

Woven Gradience celebrates colour whilst seamlessly blending into your surroundings.

The inspiration for Woven Gradience came from fusions of colour in nature - colour blends caused by light, texture, and form. The way that we see colour can shift and change.

Just like nature, the colours of Woven Gradience are both soothing and exciting. Vibrant pinks blend seamlessly with calming emerald tones. Rich terracotta transitions beautifully into soothing aqua. Each shade is grounded by soft, relaxing grey tones that allow you to connect spaces and create bespoke areas for space users.

Woven Gradience is carbon neutral throughout its full lifecycle.
