World Woven One

Interface®

World Woven™ One

在世界各地的英特飞工作室里，设计师通过当地纺织历史的镜头，共同解读和诠释着新趋势—从日本到英国，从美国到澳大利亚。贯穿始终，有一条不变的原理：简单即优雅。World Woven系列、2016年英特飞全球产品库更新产品，既是受此启发。

简单素雅，不尽完美的手工质感正适应了当代的时尚潮流。在某种程度上来讲，这种感觉更纯正，也更亲切。熟悉的纹路为我们带来安稳、舒适和幸福之感。World Woven系列从图案质地到纺织结构，处处体现这种设计的精美。

这个系列的四款核心产品是受经典羊毛制物获取灵感，时尚感源于传统机织，家具和家居饰品，直至今日，依然影响至深。与原始羊毛色对比，有种别样的美感。

在进行本款产品的色彩设计研究中，我们为了充实其效果，主要将其分类为两种色类：一种是轻柔而纯粹；另一种则是平稳而整齐。跟随自然的韵律，每种色彩都包含混合的色调，呈现出生动的色彩诠释。

首次地，我们在英特飞单款产品中附加上三款FLOR®产品，这是为World Woven系列特制的。Collins Cottage™和Scottish Sett™复兴了高贵的千鸟格和经典格子；而Mod Café™革新了1950年代的活泼乐观的图案特点。这些辨识度很高的图案可以运用在地面搭配设计中，识别地面区域性，增加趣味性和功能性。

World Woven 系列包含6款Skinny Planks™产品和三款FLOR方块产品。每款都包含8种颜色，以及100%回收的尼龙材料制作。所有的9种编织风格融合进我们当代的审美中，却依然保留一些历久弥新的风格特性。既简约高雅，又温暖振奋。

In Interface studios around the world, designers work together to decipher trend and interpret it through the lens of local textile histories – from Japan to the UK, the Americas to Australia. In this process, one thing becomes very clear: the most elegant solutions are often the simplest. World Woven Collection™, the 2016 addition to our global library of styles, is deeply influenced by this lesson.

Uncomplicated, hand crafted and imperfect are often the terms of beauty today. In a way, this seems more authentic and more accessible. Familiar objects conjure a sense of security, comfort and well-being. The World Woven Collection draws heavily from textile patterns and woven structures that embody all these things.

At the core of the collection are four patterns that were inspired by classic woolen textiles, rooted in the traditions of plain woven fabrics made for fashion, upholstery and home accessories that are still so essential today. The colors recall undyed wools with just a bit of contrast.

To complement this carefully curated set, are two color studies – one soft, less manicured and one flat and orderly. Following nature's method, each is comprised of many hues mingled together to create a more vivid rendering of color.

For the first time, we've attached three FLOR® by Interface styles, designed especially for the World Woven Collection. Collins Cottage™ and Scottish Sett™ revive the noble houndstooth and plaid while Mod Café™ renews the playful and optimistic patterns of the 1950s. These complimentary patterns can be included in a floor composition to define space, create area rugs or combine with the balance of the collection to add interest and detail.

World Woven Collection is six Skinny Planks™ and three FLOR squares, each with 8 colors and made with 100% recycled content nylon. All nine styles weave together our current predilections with memories we share of some of the most enduring textiles of the past. They are simple, elegant fabrics that keep us warm and lift our spirits.

为何模块化地毯？

Modular Carpet Tile

Performance and Flexibility. Interface's modular carpet tile sets the industry standard for performance. Tiles are designed to stay on the floor with no upcurl, tapping or rippling. Our square and plank tiles are easier to handle, install and maintain. They install with just 3-4% waste – and as little as 1.5% for i2® non directional styles – compared to an average 14% for traditional roll carpet. And our i2 styles are mergeable so tiles from multiple dye lots will always blend, even when selectively replaced years later.

性能极佳，灵活多用。英特飞模块地毯堪称业界的性能标准。我们采用精良设计，确保地毯能够紧贴地面，不会上翘、出现卷角或褶皱。方形地毯和长方形地毯的使用、安装和维护都非常方便。这些地毯的安装仅会产生3-4%废料，i2®无方向性安装方式甚至只会产生1.5%的废料，相比而言，传统卷式地毯的平均废料率高达14%。我们的i2®款式还可以混合使用，即使不同批次的地毯也可以相互融合而没有色差，即便在数年后局部更换也同样如此。

Cool Carpet™

The Low Carbon Option
Help stop climate change. ALL Interface modular carpet sold in North America is third party verified climate neutral Cool Carpet. We start by using low-carbon materials and manufacturing processes, then Cool Carpet zeros out all remaining greenhouse gas (GHG) emissions associated with the entire lifecycle of your carpet, from raw material extraction through use and recycling. And climate neutral Cool Carpet may be eligible for a USGBC or CaGBC LEED Innovation Credit.

帮助阻止全球变暖。英特飞在北美所卖出的所有地毯都是作为中和 Cool Carpet 的计量数据。我们通过使用低碳原料进行工业生产，Cool Carpet 的所有温室气体 (GHG) 零排放优势与您地毯的整个生命周期息息相关。此外，气候中和的特性证明了Cool Carpet有资格获得USGBC LEED 创新认证。获得LEED®创新认证。Cool Carpet的所有温室气体 (GHG) 零排放优势与您地毯的整个生命周期息息相关。此外，气候中和的特性证明了CoolCarpet有资格获得USGBC LEED 创新认证。

TacTiles®

No Glue Installation. Our revolutionary TacTiles installation system eliminates the need for glue, adhering tiles securely together to form a floor that “floats” for greater flexibility, easier replacement and long-term performance. The result? Less mess, less waste and virtually no VOCs, not to mention an environmental footprint that is over 90% lower than that of traditional glue adhesives.

无胶水安装。我们革命性的TacTiles安装方式不再依赖胶水粘合，而是让方块地毯牢固地连接在一起，吸附于地面上，营造出类似“漂浮着”的效果以求更灵活、更易替换、更长久高效。结果呢？更少的杂乱,更少的浪费和几乎没有的挥发量, 更不用说它能让传统胶水粘合剂减少90%以上的环境足迹了。

Intersept®

Mold Protection. Our proprietary preservative, Intersept, protects our modular carpet against mold growth and odor causing bacteria — guaranteed. Intersept treated carpet, with proper maintenance, shows no mold or bacterial growth when tested per the ASTM E2471 Standard Test Method. Intersept is EPA approved for safe use in carpet, water insoluble and contains no halogens, heavy metals, phenols or formaldehyde.

防霉保护。我们具有专利技术的抗菌性防腐剂Intersept切实保护我们的方块地毯免于霉变和异味。使用Intersept的地毯在ASTME2471标准试验方法中显示无霉菌与细菌生长的迹象。Intersept的毒性极低，不含砷、重金属、酚类及甲醛。

ReEntry®

Recyclable is Now a Reality. Through our ReEntry program and partnerships with our fiber suppliers and recycling centers throughout North America, separated Type 6 and 6,6 nylon are recycled into new 6 and 6,6 nylon, while separated GlasBac® and similar competitor backings are recycled into GlasBac®RE non-virgin PVC backing using our Cool Blue™ technology. The result? Products with up to 81% total recycled content, including as much as 35% post-consumer content.

可回收已成现实。我们的ReEntry项目采用革新技术，能够将几乎任何类型地毯的表面纤维与底背完全地分离。分离后的尼龙6和尼龙6.6将被转制成全新的尼龙6和尼龙6.6纱线，而分离后的GlasBac®底背或其他地毯公司类似的底背将回收制成新再生底背。然后呢？我们致力于设计和制造一个含有工业回收和民用回收成分的纱线和含有民用回收成分的回收型底背—GlasBac®RE的全色系产品。生产产品中有81%的总回收成分，其中35%的已消耗成分。

Sustainable Choice

Environmental Responsibility. Interface was the industry's first to publish an EPD (Environmental Product Declaration), which evaluates consistent factors based on full lifecycle assessment (LCA). We now have published EPDs for more than 99% of our products gobally.

In addition, all Interface products with GlasBacRE backing meet the Platinum level of the NSF/ ANSI 140 Sustainable Assessment for Carpet. GlasBac or NexStep® backed products meet the Gold level. All may contribute toward a USGBC or CaGBC LEED Innovation Credit.

环境责任。英特飞是业内最先获得EPD（环境产品声明）证书的公司。EPD以完整的生命周期评估 (LCA) 为基础，评估多个因素。经过认证的EPD证书涵盖了所有中国制造的英特飞产品。

此外，英特飞中国所有使用GlasBac®RE底背的产品，达到NSF/ANSI140地毯可持续性评估的铂金级标准。而采用GlasBac®和CushionBac®底背的产品达到金级标准。所有这些皆可帮助商业空间申请美国绿色建筑委员会 (USGBC)颁发的LEED认证。

Third Party Certification

cool carpet™

Cool Carpet – Our third party verified carbon offset program zeroes out all greenhouse gas (GHG) emissions associated with the entire lifecycle of your carpet.

Environmental Product Declaration (EPD) – A statement of product ingredients and environmental impacts over the entire life cycle of a product. A comprehensive life cycle assessment (LCA) is performed to ISO standards to develop an EPD, after which both the EPD and LCA must be third party verified.

Sustainable Assessment for Carpet – The only carpet sustainability standard in North America that evaluates the environmental impact of carpet for its entire lifecycle.

CRI Green Label Plus – An independent testing program that identifies carpet and adhesives with very low emissions of VOCs to help improve indoor air quality.

All product specifications reflect averages derived from product sample testing, are subject to normal manufacturing and testing tolerances and inherent pattern variances, and may be changed without notice. For more information about these and other important attributes of the product(s) described herein, including recycled content and product warranty information, please see www.interface.com.cn.

所有产品技术参数平均值均来源于产品样品的测试结果，实际产品的测试公差和图案会有细微差异, 可能会随时更新, 恕不另行通知。更多关于这些和其他产品的重要属性的描述信息, 包括回收成分和产品质保信息, 请参阅www.interface.com.cn。

RECYCLED
Paper made from recycled material

Printed on 50% post consumer waste (PCW) fiber manufactured using wind power.

We have tried our very best to accurately represent product colors. However, due to the nature of printed materials, color of actual products may vary slightly. Please request a sample to see actual product color.

此册纸张是由风力发电生产的含50%民用回收成分的纤维(PCW)所制。

我们已经尽我们所能尝试去最准确的反映产品的颜色。然而，由于印刷的原材料，实际产品的颜色可能会略有不同。如需查看实际产品的颜色，请定购一片地毯样品。
